

AUTHORISATION

This is an additional authorisation to what you provided to InterCheck Global Pty Ltd. (a Certn Company) to complete an Australian Right to Work Check for (the "**Company**").

This authorisation relates specifically to the Company's enrolment of you in Certn's Continuous Monitoring service ("**Continuous Monitoring**").

By signing below, you authorise InterCheck to periodically re-verify the results of your Australian Right to Work Check on behalf of the Company for as long as Continuous Monitoring remains active if they wish to do so as per their agreement with you, by using the same Personal Information you originally provided for your initial Report. You will not be required to provide a new authorisation or resubmit your Personal Information for each re-verification.

For clarity, we will re-run the Australian Right to Work check every 14 days, and Continuous Monitoring will remain active for up to 12 months from the date you are enrolled, after which the Company must re-order Continuous Monitoring for it to continue. If a re-run produces a result that differs from the original result in your Report (or, for later re-runs, the most recent monitored result), we will notify the Company of the change, and that new result will then become the baseline against which future re-runs are compared. The Company may pause or stop Continuous Monitoring for you, at any time. As part of each re-verification, InterCheck may use the Visa Entitlement Verification Online (VEVO) to confirm the veracity of your information. Personal Information collected or confirmed during Continuous Monitoring may be processed by our employees and contractors in Canada, Australia, the United States, and the United Kingdom, in accordance with applicable laws and our privacy and security policies. You may withdraw your consent to Continuous Monitoring at any time, separately from your original authorisation, by contacting us at apac-privacy@certn.co. Withdrawing your consent to Continuous Monitoring will stop future re-runs but will not affect the validity of your original authorisation. Please note that withdrawal will impact the Company's ability to receive ongoing monitoring updates.

Further information regarding the collection, use, disclosure, or storage of your Personal Information can be found in our privacy policy [here](#).
